# Feedback, Reflections and Actions following NHSE Resilience event on 11<sup>th</sup> May 2017

Spencer GayG

# NHSE Resilience Event 11<sup>th</sup> May

- Attendees; SG, ML, TS
- Launch of:
  - Menu of Opportunities – MoO
  - QIPP Opportunity Guide
  - Resilience Handbook
- Presentations from CCG's on the practical things they were doing or had done re QIPP delivery

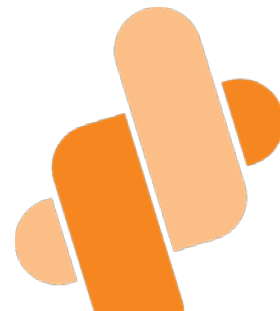

# Reminders and Reflections

- QIPP needs
  - Board ownership and leadership
  - to be clinically led
  - To be an all year round process
- Lack of effective messaging to the public is potentially an issue.
  - E.g. iCare.....About Myself.....About My Family.....About using NHS resources responsibly/wisely
- Parallels between other CCG's (who had encountered significant financial problems) and ourselves....
  - Would a financial deficit be a surprise?
  - Do we have an absolute grip on our projects?
  - Do we prioritise effectively? (Do we ever stop doing things?)

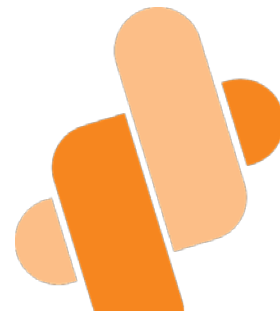

# Reflections... Things that could improve

- Board and Clinical leadership/ownership of Financial issues and QIPP delivery
  - Improved Financial Reporting
  - Improved QIPP reporting
- Improved Grip on Implementation
  - PMO Process
- Improved planning and prioritisation  
....through F&P and FOG  
And a “Prioritisation Tool”
- Patient Communications?

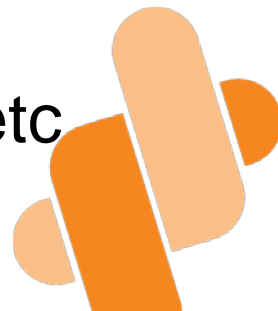

- LLR Wide Qipp Assurance Group Established
- NHSE oversight/scrutiny increasing
- PMO Structure agreed internally
- PMO WLCCG process agreed and shared with staff
- Additional Staff required to support PMO process
- Internal and WL LLR work streams clear on requirements

# FOG - What else can we do and how

- Strengthen Clinical Leadership and Ownership
  - ML to chair FOG
  - Board GP's to attend FOG
- Focus on things we can do something about, E.g
  - Primary Care
  - Making existing services work better for our patients
  - Choosing Wisely
- More Strategic / forward thinking
  - Evidence based planning
  - Learning from other areas/national reports etc

# Menu of Opportunities

---

- Updated version of the MoO released in January
- Opportunities have been categorised into STP programmes and SROs asked to give their view
- Feedback from SROs will be collated and reported to CCB in June
- FOG members have been asked to forward their view on the MoO as not all opportunities sit within STP programmes
